

Employment Opportunities // Project Landscape Architect

Applied Landscape Design is a full service Landscape Architecture, Urban Design and Landscape Management practice based in Oxfordshire.

The practice, established in 2002 by Kym Jones, are proud to offer clients a valuable mix of multidisciplinary expertise, personal involvement, commitment to detail and a desire to deliver truly successful projects.

The team has a wealth of experience working with corporate, government and private clients to design parks and public gardens, streetscapes, roof gardens, commercial and corporate headquarters, retail developments, housing, health and education projects.

we design / we deliver / we create

The Position

We have a vacancy in our Bicester Office for a Project Lead Landscape Architect with approx. 2-5yrs experience, to strengthen our existing team. We are looking for someone that is a confident project leader, creative designer, proven in delivering design information on time and at all stages. Someone that is organised and technically minded, able to help out where required, as well as drive projects to completion.

Training & Professional Development

We encourage our staff to develop their personal and professional skills through tailored training and group CPD activities. Landscape Architects will be supported throughout their training and successful applicants will have the opportunity to be directly involved in a comprehensive range of high profile schemes, providing experience for all areas of the LI's Pathway to Chartership syllabus.

Duties & Responsibilities

- Client briefings / liaison, Design Team Meetings and Site Inspections
- Project ownership and day to day delivery
- Organisation of project resource requirements & staff members
- Preparation of drawings, reports and contract documents
- Carry out surveys and assessments as required
- Liaison with multi disciplinary team members
- Support other members of staff and plan your workload
- 3D modelling and organisation of project share folders
- Drawing reviews and commenting, internal and external

Qualifications & Experience

- Applicants should have a Degree, Post Graduate Diploma or Masters qualification, and 2-5 years experience in Landscape

Architecture or an associated discipline

- Good presentation skills are essential, as well as the ability to prepare technical and working drawings
- Experience in AutoCAD, Revit, Adobe Creative Suite or similar programs is desirable
- Confidence to run projects day to day and meet deadlines
- Planting design / horticultural knowledge and skills
- Awareness of current trends, sustainable design solutions and material properties or construction techniques
- Experience of LVIA process and report writing is desirable

Location

This post will be based at Applied Landscape Design, Falcon House, Telford Road, Bicester, Oxfordshire OX26 4LD. Approx. 45mins by train from London

Salary & Benefits

We believe that to attract the best we should offer excellent rewards. Graduates will enjoy a competitive salary determined by experience levels and current skills, which will be based on 37.5 hours per week. A flexible start date can be negotiated

To Apply

Send your CV and a showcase of your work at the earliest opportunity, please include a cover letter outlining why you wish to work for ALD and what you hope to achieve
